SOHAM KALE

QA Test Engineer | Automation & QA Specialist
kalesoham651@gmail.com | +91 9325383884 | Pune, Maharashtra

PROFESSIONAL SUMMARY

QA Automation Engineer with 2+ years of experience in Automation Testing, Manual Testing, and API Testing across Banking and Financial Services domains. Experienced in Playwright (JavaScript), Selenium WebDriver (Java), REST Assured, SQL, Jenkins, GitHub Actions, and Agile methodologies. Skilled in automation framework development, API validation, CI/CD integration, test execution, regression testing, and defect management. Strong analytical, problem solving, and collaboration skills with a focus on delivering high-quality software.

TECHNICAL SKILLS

Languages	Java, JavaScript, TypeScript, SQL
Automation Tools	Playwright, Selenium WebDriver
API Testing	REST Assured, Postman
Frameworks	TestNG, Cucumber, Maven, Page Object Model (POM), Hybrid Framework
Testing Types	Functional, Regression, Smoke, Sanity, API, Cross-browser, UAT, E2E
Methodologies	Agile (Scrum), Software Testing Life Cycle (STLC), Software Development Life Cycle (SDLC)
CI/CD & DevOps	GitHub Actions, Jenkins, Docker
Defect Tracking & Collaboration	Jira, GitHub
Database	MySQL
Reporting	Test Execution Reports, Defect Reports, Test Summary Reports
AI Tools	Claude AI, ChatGPT, GitHub Copilot, Google Gemini

WORK EXPERIENCE

Automation Test Engineer **June 2024 – Present**
Client : Altimetrik India Pvt Ltm, Pune

Project 1: Hyundai - Automotive Dealer Management System

Tech Stack: Java 8, Selenium, TestNG, Maven, BDD (Cucumber)

Description:
A complete Dealer Management System for the automobile industry, covering finance, sales, workshop, inventory, and administration operations.

Responsibilities:

- Converted manual test scenarios into automation scripts.
- Implemented UI automation using Java, Selenium WebDriver, TestNG, Maven, Cucumber.
- Executed automation scripts and generated Extent HTML Reports.
- Analyzed automation reports, identified defects, and logged them in JIRA.
- Performed POC for automation using TDD framework.

Project 2: FAB Bank (Digital Banking Platform)

Tech Stack: Playwright (JavaScript), Postman

Description:
Fin-Sphere provides digital banking solutions, including mobile/online banking, loan applications, e-statements, account opening, and conversational AI.

Responsibilities:

- Prepared automation scripts and identified test data.

- Designed BDD scenarios using Gherkin syntax.
- Developed Playwright-based UI automation with BDD integration.
- Created and executed API automation scripts using Playwright.
- Generated HTML reports for automation results.
- Reported and tracked defects using Azure DevOps.

Project 3: ParaBank Test Automation (Personal Project)

Tech Stack: Playwright, TypeScript, Claude Code, Playwright CLI, GitHub Actions

Description:
Built a Playwright + TypeScript framework (POM, custom fixtures, UI + API tests, GitHub Actions CI) for a demo banking app, using Claude Code with Playwright CLI for AI-assisted test generation and debugging.

GitHub: https://github.com/zoro460/parabank-playwright-ai

KEY COMPETENCIES

- Test Automation (Playwright & Selenium)
- Framework Design (POM, Data-Driven)
- Cross-browser & Cross-platform Testing
- API Testing (REST Assured)
- Agile/Scrum Methodology
- Test Execution
- CI/CD Integration (GitHub Actions, Jenkins)
- Defect Management & Reporting (JIRA)
- SQL / Database Validation

EDUCATION

Bachelor of Computer Applications Shegaon, Maharashtra
Sant Gadge Baba Amravati University – Saraswati College of Shegaon

ADDITIONAL INFORMATION

Languages: English, Hindi, Marathi
Location: Pune, Maharashtra, India
